

KS1 Spring term 2 – Under The Sea

In English we will focus on descriptive writing and using books to find information.

In Maths we will look at measuring, weight and capacity alongside continuing our number work on multiplication and division.

In Science we will be looking at the animal kingdom and classifying animals by where they live, what they eat and comparing babies and adult animals.

In geography we are going to look at the oceans of the world and learn about reading maps.

In PE we are continuing our work on gymnastics and team games whilst learning about why exercise is good for us!

In RE we are going to be focussing on Easter and holy week.

In Computing we are going to look at algorithms and how to program digital devices.

In Art and design we will look at the colours under the sea and combine with patterns related to the sea.

In music we will look at recreating the sounds and rhymes of the sea and look at the variety of songs about the sea.
