

KS1 Spring Term 1 – Where We Live

In English we are going to look at information texts in order to read and write about the local area. We will look at and write local poetry and advertising texts.

In Maths we are going to learn about money, telling the time, multiplication and division as well as continuing our work on addition, subtraction and shape.

In Geography we are going to look at the geography of our local area and compare where we live to an area of Africa.

In Science we are going to focus on ourselves and learn all about the human body and how to look after ourselves.

In RE we are going to look at Judaism and it's similarities and differences to Christianity.

In Computing we will focus on how we can use computers and the internet to get information and how to write / draw using a computer.

In PE we are going to do gymnastics to learn how to jump, balance and control our bodies in many different ways. This will increase our flexibility and stamina.

In Music we will be focusing on using instruments to make different sounds and pitches. We will continue on to using our voices in different ways.

In Art and Design we will focus on landscapes from the local area so children get an understanding of the beauty of the Lake District.

In Spanish we will learn about Spain and simple phrases such as counting and family.
